SANSKRITI GUPTA

FULL STACK WEB DEVELOPER

ABOUT ME

Full Stack Web Developer with hands-on experience in MERN stack, RESTful APIs, and AI/NLP integrations. Currently pursuing B.Tech at PICT (2024–28) with a 9.65 CGPA. Built and deployed production-ready applications including an AI legal assistant and a fraud detection platform. Strong problem-solver with 200+ LeetCode solutions.

SKILLS

- **Languages:** C++, Python, JavaScript
- **Frontend:** React.js, HTML, CSS, Javascript
- **Backend:** Node.js, Express.js, REST APIs, JWT Auth
- **Databases:** MongoDB, PostgreSQL, Prisma ORM
- **AI / NLP:** OpenAI GPT, Groq API, NLP, Rule-Based Analysis
- **Tools:** Git, GitHub, Vercel
- **Other:** DSA, Problem Solving (LeetCode 200+)

LANGUAGES

- English – Professional Working Proficiency
- Hindi – Native / Full Professional Proficiency
- German – Beginner / Elementary Proficiency

EDUCATION

Infant Jesus School

Secondary School

Grade: 98.6%

Poddar Brio International School

Senior Secondary School

Grade: 87.6%

Pune Institute of Computer

Technology (2024-28)

Bachelor of Technology

Grade: 9.65 CGPA

ACHIEVEMENTS

- Ranked as one of the top students in the branch with 9.65 CGPA. This reflects my strong commitment to academics and my solid performance.
- Solved 200+ Data Structures & Algorithms problems on LeetCode
- **Leetcode:** <https://leetcode.com/u/sanskritigupta17/>
- NPTEL Certified: Python for Data Science — Score: 87%
- Hands-on experience in MERN Stack Development through project-based learning

PROJECTS

AI SQL GENERATOR

2024-Present

Full Stack Development + AI integration

- Built a full-stack app converting natural language to SQL using OpenAI's GPT-3.5-turbo API
- Used prompt engineering and schema injection for accurate, context-aware query generation
- Added syntax highlighting, auto-explanations, and query history for better UX
- Deployed with secure backend (Render) protecting API keys, frontend hosted on Vercel
- Tech Stack: HTML, CSS, JavaScript, Node.js, Express, OpenAI API
- Website Link: <https://sql-generator-zeta.vercel.app/>

LINGOQUEST

Front-end Development

2024-Present

- LingoQuest is an interactive language-learning web platform designed to help beginners learn German, Spanish, and Hindi through structured lessons and practice-based learning.
- It offers well-explained lesson articles followed by gamified quizzes with XP, lives, progress tracking, and instant feedback to improve retention.
- The platform focuses on real-life vocabulary, grammar basics, and everyday conversations, making learning practical and beginner-friendly.
- It features a modern, responsive Glass UI design with a consistent theme across all pages, ensuring an engaging and smooth user experience.
- Tech Stack: HTML, CSS, JavaScript, GitHub
- **Github repo:** <https://github.com/sanaryan175/LingoQuest>

PAYSURE — FINANCIAL SAFETY PLATFORM

2025-Present

Full Stack Development

- Built a decision-support system to evaluate loan affordability and prevent risky borrowing using user financial data
- Developed an NLP-based agreement analyzer to simplify contracts and detect hidden risks and unfair terms
- Implemented a proactive fraud detection layer (URLs + scams) as a “Check Before You Pay” safety system for smarter financial decisions
- TechStack: MERN Stack (MongoDB, Express.js, React.js, Node.js), NLP, Groq API, Rule-Based Analysis, REST APIs, JWT Auth
