sanaryan175

Profile

Full Stack Developer with hands-on experience in MERN stack, RESTful APIs, and AI integrations. Skilled in building scalable web applications and AI solutions using LLMs, LangChain, and RAG pipelines. Experienced in developing end-to-end applications with modern web technologies and API integrations.

Education

Pune Institute of Computer Technology

B.Tech in Artificial Intelligence and Data Science-9.77

2024-28

Poddar Brio International School

Senior Secondary School-87.6%

2022-2024

Projects

PAYSURE — FINANCIAL SAFETY PLATFORM | Website

2026

- Developed a financial safety platform to assess loan affordability using user financial data, risk analysis, and automated decision mechanisms.
- Built an NLP-powered agreement analyzer to process contracts, extract key information, and identify potential hidden risks for improved efficiency.
- Engineered a proactive fraud detection and safety system to analyze financial patterns, detect suspicious activities, and secure decision-making.
- Technologies / Tools Used:** Node.js, MongoDB, React, Express, Tailwind CSS, NLP, JWT Auth, OCR
- Github:** <https://github.com/sanaryan175/paysure-backend>

SQL Generator | Website

2026

- Built a full-stack AI-powered application that converts natural language queries into SQL using OpenAI GPT models.
- Implemented prompt engineering and database schema injection techniques to generate accurate, context-aware SQL queries.
- Developed features including SQL syntax highlighting, automated query explanations, and query history management to enhance user experience.
- Technologies / Tools Used:** JavaScript, React.js, Node.js, Express.js, MongoDB, PostgreSQL
- Github:** https://github.com/sanaryan175/sql_generator/

LingoQuest | Website

2025

- Built a responsive language-learning platform using modern web technologies to help users learn multiple languages through interactive content.
- Implemented gamification features including quizzes, progress tracking, and real-time feedback to enhance retention and learning experience.
- Technologies / Tools Used:** HTML, CSS, JavaScript
- Github:** <https://github.com/sanaryan175/LingoQuest>

Skills

Programming Languages: C++, Python, JavaScript

Technologies: React.js, Node.js, Express.js, FastAPI, HTML5, CSS3, Tailwind CSS, MongoDB, PostgreSQL, MySQL, ChromaDB, Supabase, REST APIs, LangChain, LLMs, RAG, OpenAI API, NLP, Machine Learning, Deep Learning, Prompt Engineering

Tools & Platforms: Git, GitHub, Docker, Postman, Vercel, Render, VS Code, MLOps, Model Evaluation

Languages: English (Professional), Hindi (Native), German (Beginner)

Certificate

Python for Data Science

NPTEL

GenAI Foundational Models for NLP

IBM

Git & GitHub Essentials

Udemy

Achievements

- Achieved 9.65 CGPA and ranked among the top students in the branch.
- Solved 200+ Data Structures and Algorithms (DSA) problems on LeetCode, improving algorithmic problem-solving skills.
- Developed full-stack applications using MERN Stack (MongoDB, Express.js, React.js, Node.js) and integrated AI technologies including LLMs and APIs.
